Education

Dr. APJ Abdul Kalam Technical University Lucknow	**Aug 2020 – July 2023**
Bachelors of Technology in Computer Science and Engineering	*PERCENTAGE: 78.4*
Prasad Polytechnic Lucknow	**Sep 2018**
Diploma in Electrical Engineering	*PERCENTAGE: 72.9*
Kamla Rai College	**June 2015**
12th	*PERCENTAGE: 58.8*
DAV School	**June 2013**
10th	*PERCENTAGE: 62.8*

Technical Skills

Programming Languages: Java, JavaScript

Frontend Technologies: HTML, CSS, React.js, Redux Toolkit

Backend Technologies: Node.js, Express.js, REST APIs

Database: MongoDB

Tools & Platforms: NetBeans, Visual Studio Code, Postman, Git, GitHub

Experience

Sun Integrated Technologies And Applications	**March 2024 – Till Date**
Full-stack Developer	New Delhi

Tender Management System (TMS)

The Tender Management System (TMS) is a web application developed for Ahluwalia Contracts as part of the PRA project. It streamlines the entire tender lifecycle, from submission to contract award, ensuring transparency and efficiency in managing tender-related activities. Key features include tender submission and tracking, contract awarding, MOM logs management, pre-bid meeting scheduling, file management, and user role-based access control.

Technologies Used: React.js, Redux Toolkit, Material UI, Node.js, Express, MongoDB, Redux, Moment.js, JWT Authentication.

Live IT Solution, Lucknow	**April 2023 – February 2024**
(Software Developer Trainee – Frontend React Developer)	Lucknow

Built a Quiz Application to dynamically present questions and calculate scores, showcasing Reacts component-based structure and state management. Contributed to specific modules of an E-commerce Website, applying advanced React concepts for smooth functionality. These projects enhanced my React.js skills, problem-solving abilities, and experience in developing interactive web applications.

MERN Stack Training at Ducat Ghaziabad	**Nov 2023 – July 2024**

- Engaged in comprehensive MERN Stack training at Ducat, focusing on MongoDB, Express.js, React.js, and Node.js.

Doctor | *React.js, Node.js, Express, MongoDB, JWT Authentication*   **Link**

Developed a **MERN Stack Doctor Appointment Management System** with **React.js** frontend, **Node.js/Express** backend, JWT authentication, and **MongoDB** for secure data storage. The app features a responsive UI to manage doctors, specialties, and appointments, with RESTful APIs for user registration, scheduling, and role-based access control. Designed for scalability and smooth user experience across devices.

Lucknow Metro Bundler | *HTML, CSS, JavaScript, React.js*   **Link**

Lucknow Metro Bundler is an **online portal** where the users get all the details of **travelling details** of Lucknow Metros. It's a **website developed** using **React.Js** where the user can enter **starting station** as well as **destination** and accordingly get the **schedule** of the **first and last available metro** along with the **fare**, **travelling time**, **details** of **all** the **stations** in the **route**, along with tourist places available at the **destination** as an add on information.

Certificate

• **Core Java:** Certification in Core Java by Sunrise Technologies.
